Jennifer Fulton is known for her wit, her luscious romances, and her superior writing. *Naked Heart* adds another talent; writing extremely hot, fanning your face (and other places), sex scenes! Her protagonists are polar opposites: Penn Harte, a former CIA agent, is an independent contractor who sells her unique skills to the highest bidder. Unity Vaughan owns her own biotech company, and is a superb scientist involved in a breakthrough discovery.

Penn is a love-them-and-leave-them gal who helps out at her best friend's upscale fetish club. Unity has been burned and humiliated by her last lover and is content to be a workaholic. When she discovers that her company is a target for industrial espionage and a hostile takeover, she seeks out the best in the field for protection: Penn. The conundrum is that Penn has already been hired to seduce Unity and make a blackmail tape.

Fulton has filled her book with wonderful characters, including an enigmatic Asian, two very blond, very hot twins, cancer-riddled Lila, and enough sex to boggle the imagination. She has even included a wonderful scene with a famed skater, the very desirable Katarina Witt. Through all of this, she has a well-developed plot which almost changes the genre of this book to a mystery.

*Naked Heart* takes the reader for a walk on the wild side with Jennifer Fulton as an excellent guide to the best sights and scenes. This book will have her fans clamoring, (or panting) for more.
